

Flat Bar

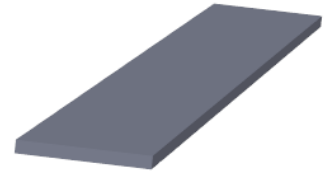

Product Description/ Specification:

Our flat bar is one of the best in Europe for shape in terms of uniformity in flatness, straightness and lack of twist. Any combination of size and length can be provided giving you the exact width and length you require.

The popular materials we supply are Carbon Steel, SS 304/304L, SS 316/316L and Galvanised Steel.

Dimensions:

- Standard stock length: 4m
- Non standard lengths up to 6m
- Non standard widths up to 200mm

Further processing can be arranged for the customer specifications including drilling, mitering and roll-forming.

Width		Thickness (mm)							
Inch	mm	1.6	2	3	4	5	6	8	12
